

THE FUTURE OF HEALTH CARE : HOUSING'S CONTRIBUTION

Tuesday 21st March 2017

Double Tree by Hilton Hotel, Leeds, 2 Wharf Approach, Leeds

The NHS is facing unprecedented levels of pressure and is looking for new ways to respond to the challenges it faces. Key to this are the new models of care that are being rolled out across England.

The event is an opportunity to :

- i) hear from senior leaders in the NHS about the ways in which the NHS plans to transform care and the opportunities for collaboration;
- ii) discuss the different strategies being developed by housing associations across the region to rise to the challenge;
- iii) attend workshops providing an opportunity to explore the practical opportunities for working more closely with health.
